DOMESTIC MAIL CLASSIFICATION SCHEDULE LANGUAGE**935 BULK PARCEL RETURN SERVICE****935.1 Definition**

935.11 Bulk Parcel Return Service provides a method whereby high-volume parcel mailers may have [undeliverable-as-addressed] machinable parcels returned to designated postal facilities for pickup by the mailer at a predetermined frequency specified by the Postal Service or delivered by the Postal Service in bulk in a manner and frequency specified by the Postal Service. Such parcels are being returned because they: (1) are undeliverable-as-addressed; (2) have been opened, resealed, and redeposited into the mail for return to the mailer using the return label described in section 935.36 below; or (3) are found in the mailstream, having been opened, resealed, and redeposited by the recipient for return to the mailer, and it is impracticable or inefficient for the Postal Service to return the mailpiece to the recipient for payment of return postage.

935.2 Description of Service

935.21 Bulk Parcel Return Service is available only for the return of machinable parcels, as defined by the Postal Service, initially mailed under the following Standard Mail subclasses: Regular and Nonprofit.

935.3 Requirements of the Mailer

935.31 Mailers must receive authorization from the Postal Service to use Bulk Parcel Return Service.

935.32 To claim eligibility for Bulk Parcel Return Service at each facility through which the mailer requests Bulk Parcel Return Service, the mailer must demonstrate receipt of 10,000 returned machinable parcels at a given delivery point in the previous postal fiscal year or must demonstrate a high likelihood of receiving 10,000 returned parcels in the postal fiscal year for which the service is requested.

935.33 Payment for Bulk Parcel Return Service is made through advance deposit account, or as otherwise specified by the Postal Service.
